

# Geospatial Advances to Advance Sustainable Forest Management

Inaugural Webinar on Innovation  
in Forest Resources Management  
Asia-Pacific Young Scientist  
Scholar Association (AYSA)

Honorary Chair  
Prof. Nicholas Coops, University  
of British Columbia, Canada

Executive Chair  
Prof. Lin Cao, Nanjing Forestry  
University, China

Dr. Nicholas Coops is a professor at the University of British Columbia and a Canada Research Chair (Tier 1) in remote sensing. Nicholas is the head of the Integrated Remote Sensing Studio within the Faculty of Forestry, a research lab at UBC investigating and demonstrating applications of remote sensing data to address environmental conservation and forest production issues.

He will speak about the recent advances in remote sensing, image analysis, drones, sensor networks and deep learning all of which combine to offer new insights into sustainable forest management to improve our understanding of changes in forest ecosystems.

When: May 12, 2022 18:00-19:30 (Vancouver Time)

May 13, 2022 09:00-10:30 (Beijing Time)

Where: Zoom webinar
